

# ANJALI

## FRONTEND DEVELOPER

New Delhi, India • akvr46921@gmail.com

[GitHub](#) • [Portfolio](#) • [LinkedIn](#)

---

### PROFESSIONAL SUMMARY

Frontend Developer and BCA graduate who learned React.js hands-on by building and shipping three production-grade applications in parallel, alongside the Meta Full Stack Developer Professional Certificate. Skilled in developing scalable, component-based user interfaces and converting Figma designs into pixel-perfect, accessible, mobile-first experiences. Builds through component architecture, Git-based deployment workflows, and Lighthouse-driven performance optimization. Seeking a Frontend Developer internship or entry-level full-time role to contribute to real-world applications in a fast-paced engineering environment.

---

### TECHNICAL SKILLS

- Languages: JavaScript (ES6+), HTML5, CSS3
- Libraries & Frameworks: React.js, JSX, CSS Modules, Tailwind CSS, Bootstrap
- APIs & Storage: LocalStorage, Web3Forms, Notification API, Web Audio API
- Tools & Platforms: Git, GitHub, VS Code, Vercel, Netlify, Chrome DevTools
- Core Competencies: Responsive Design (Flexbox/Grid), DOM Manipulation, Event Handling, Cross-Browser Compatibility, Performance Optimization (Lighthouse)

---

### TECHNICAL PROJECTS

#### tick — Minimal Matrix Task Manager

June 2026 – Present

React.js, Tailwind CSS, JavaScript, Vite, Web Audio API, Notification API, LocalStorage | Live: [tick-task-manager.vercel.app](#) | Repo: [github.com/akvr000/tick-task-manager](#)

- Built a responsive task management application by translating a Figma design into a production-ready React app, applying React fundamentals directly as they were learned.
- Architected task CRUD operations, priority-based organization, HTML5 drag-and-drop reordering, and deadline tracking with persistent LocalStorage.
- Automated deadline alerts by integrating Browser Notification and Web Audio APIs, achieving 90 Performance, 93 Accessibility, 100 Best Practices, and 100 SEO on Google Lighthouse.

#### SafeVault — React SaaS Landing Page

June 2026 – Present

React, CSS Modules, Responsive Design, Vercel | Live: [safevault-landing-page.vercel.app](#) | Repo: [github.com/akvr000/safevault-landing-page](#)

- Engineered a responsive SaaS landing page from scratch using an iterative, section-by-section build approach, refining and fixing issues in a final polish pass — CSS Modules enforced component-scoped, conflict-free styling.
- Built an interactive pricing matrix toggle and glassmorphism UI elements, animated with smooth CSS transitions.
- Designed a fully accessible mobile hamburger menu, ensuring cross-browser compatibility across all major modern browsers.
- Streamlined asset delivery to achieve a 97 Performance score and perfect 100 scores in SEO and Best Practices on Google Lighthouse.

#### Personal Portfolio Website

Apr 2026 – Present

HTML5, CSS3, Bootstrap, JavaScript, Web3Forms | Live: [akvr000.github.io/frontend-portfolio](#) | Repo: [github.com/akvr000/frontend-portfolio](#)

- Developed a fully responsive personal portfolio site using a mobile-first design approach.
- Integrated Web3Forms to automate serverless contact form validation and email submission handling.
- Deployed the site to GitHub Pages with a custom domain, using Git-based CI/CD workflows for automatic build-and-deploy on push.

---

### EDUCATION & CERTIFICATIONS

#### Bachelor of Computer Applications (BCA) — IGNOU University

2022 – 2026

First Division

#### Diploma in Programming — Expert Academy

2024

Grade: A+ • Core Languages: C, C++, Python, Java

#### Meta Full Stack Developer Professional Certificate — Coursera

In Progress

Completed coursework: HTML/CSS Fundamentals, JavaScript Essentials, React Basics, Advanced JavaScript, Responsive Design
